Profile

Full Stack Web Developer experienced in building secure, scalable web applications across frontend and backend, delivering production-ready solutions for clients.

Education

Anadolu University, Management Information Systems (Bachelor's Degree) 03/2024 – Present

Eskişehir Osmangazi University, Computer Programming (Associate Degree) 10/2021 – 09/2023

Final GPA: 3.67 / 4.00

Professional Experience

Fullstack Developer, Freelance 04/2024 – Present

- Built full-stack applications for diverse clients using React, Next.js, PHP, MySQL and MongoDB.
- Built and launched a secure crypto platform where users can connect wallets, stake tokens and NFTs, claim rewards, and participate in presale and airdrop events through an intuitive interface.
- Delivered a **corporate website for a construction company**, handling both frontend design and backend content management.
- Created and launched **personal and client blogs** with secure authentication and optimized performance.

UI Developer Intern, Jotform (Remote) 07/2023 – 08/2023

- Collaborated with the design team to translate Figma mockups into pixel-perfect, responsive web interfaces.
- Developed and maintained a library of reusable **React** components for an AI-powered assistant, improving development speed.

Projects

Next.js E-commerce, ecommerce.mustafakole.dev

Developed with **Prisma/MongoDB** for data, **NextAuth** for security, and **TanStack Query** for optimized state management.

Next.js Blog, mkole.vercel.app

Features SEO-friendly routing (**App Router**), Google OAuth (**Auth.js**), and data management with **Prisma/MongoDB**.

PHP Blog, [GitHub Link](#)

- Built a dynamic **PHP/MySQL** blog with user registration, comments, and a full admin panel for content management.

C# Admin Panel, [GitHub Link](#)

Designed a **C#** desktop admin panel with **MySQL** to manage gym member data.
